5. Regardless of the conditions specified above, entities between whom a relation of domination or dependence exists, pursuant to section 6 below, are deemed to constitute a group (hereafter referred to as “**the Group**”) and their votes are cumulated. If the cumulative total specified in this section exceeds the 20% of the total number of votes at the General Meeting, these votes are subject to reduction as specified in section 8 below.
6. A Group is assumed to exist when:
 - a) (i) one of the parties involved is the parent company of the remaining parties, or (ii) the Shareholder is the parent company of the remaining parties pursuant to the provisions of the Commercial Company Code (Journal of Laws, 2016, item 1578, unified text);

When, as a result of this cumulation, the number of votes controlled by the Group exceeds 20% of the total number of votes, these votes are subject to reduction as specified in section 8 below.
8. Reduction of votes is defined as a decrease in the aggregate number of votes appertaining to a Shareholder or Shareholders (regardless of whether they belong to a Group or are subject to cumulation based on the abovementioned rules) at the General Meeting in such a way that:
 - a) the number of votes appertaining to the shareholder who controlled the greatest number of votes prior to cumulation is decreased, except as specified in item d) below, by the difference between the number of votes originally controlled and 20% of the total number of votes.
 - b) if, despite the reduction specified in item a) above, the aggregate number of votes appertaining to parties whose votes are subject to cumulation continues to exceed 20% of the total number of votes, except as specified in item d) below, the votes of additional parties are reduced in the order determined by the number of votes controlled prior to reduction (greatest to smallest). This procedure is repeated until the cumulated votes constitute not more than 20% of the total number of votes;
 - c) when two or more parties control the same number of votes subject to cumulation, reduction is carried out proportionally with fractional votes rounded down.
 - d) in all circumstances each party whose votes are subject to reduction in accordance with items a) – c) above retains the right to cast at least a single vote.
9. Each Shareholder intending to take part in the General Meeting, whether directly or through a plenipotentiary, is obligated to provide an unsolicited written notice to the Management Board not later than 7 days before the convocation of the General Meeting to the effect that they control, directly or indirectly, more than 20% of the total number of votes. This notice shall be deemed effectively delivered if it is received by the Management Board not later than on the deadline specified in this section.
10. The duty specified in section 9 above also applies separately to each Shareholder belonging to a Group. The corresponding notice should list all entities or Group members whose votes are subject to cumulation along with the number of votes controlled by each member prior to reduction, as specified in section 8 above.
11. The restriction specified in section 1 above does not apply to the duties of major shareholders as set forth in the Offerings Act.

§ 25b.

1. The voting restriction specified in §25a section 1 above shall not apply to parties controlling 50% or more than 50% of the total number of votes in the Company when the shares have been purchased by way of a public tender offer to acquire all remaining shares of the Company (hereafter referred to as “**the Tender**”) pursuant to Art. 74 section 1 of the Offerings Act.
2. If, following conclusion of the Tender, the party or parties who originally called the Tender control less than 50% of the total number of votes, the restriction specified in §25a section 1 above shall continue to apply to those parties.”
