In the opinion of the Supervisory Board the Company's condition is stable. Following assessment of the Company's condition in 2019 as well as key risk factors affecting the Company, the Supervisory Board perceives no substantial threat which could jeopardize the continuation of Company activities.

Throughout 2019 the Company conducted its business in a manner consistent with legal regulations applicable to public companies, including corporate governance law. In the Supervisory Board's opinion, the Company met its disclosure obligations relating to compliance with corporate governance law.

The Management Board of the Company is responsible for its internal control and risk mitigation systems and for periodic assessment of risk factors which may affect the Company during the given fiscal year.

It is also responsible for ensuring the correctness of said statements, as well as of periodic reports. To this end, the Management Board is tasked with supervising the preparation of any legally required documents. Financial data reported in these documents is derived from the Company's accounting system which registers transactions in line with the Company's accounting policy, itself consistent with the International Accounting Standards.

Any violations or irregularities related to the abovementioned procedures are reportable directly to the Management Board of the Company.

Summary

In the Supervisory Board's opinion, the internal control system and risk mitigation strategies described above are consistent. As such, the Supervisory Board deems the internal control system and risk mitigation strategies applied in 2019 appropriate and believes that they materially reduce key risks which may threaten Company operations.

Assessment of sponsorships and other charitable activities

The Company has not instituted a formal policy regarding sponsorships and charitable activities given the marginal role of such activities.
